Ireland Windows 7 Theme Download [Win/Mac]

KEYMACRO is a desktop program allowing you to use the Windows key directly on your keyboard in order to launch your preferred applications and operating system functions. Each function has been assigned a key combination for easier access, while the 'Show Windows 7 key' function will allow you to easily launch the Windows key as it appears on your keyboard. This desktop program allows you to combine the two most popular functions of your keyboard: the Windows key and the multimedia key. KEYMACRO will remember the Windows key combinations you have stored and allows you to easily launch your most used functions. KEYMACRO also allows you to change the key combination assigned to specific functions. KEYMACRO can be used with any version of Windows (XP, Vista or Windows 7), but it will NOT work on the Windows 8 key. Works with: Windows 7, Windows Vista, Windows XP Free Screensaver for Vista Gorgeous seaside cliffs, green landscapes and mysterious rock formations - we are surely talking about Ireland. Download images of the Emerald Isle, as well as Celtic sounds, in this freeware Windows 7 themepack brought to you by Microsoft. KEYMACRO Description: KEYMACRO is a desktop program allowing you to use the Windows key directly on your keyboard in order to launch your preferred applications and operating system functions.
