Yahoo Pal Crack +

Yahoo Pal is a software utility addressed to all those who love chatting on Yahoo Messenger, adding a bunch of useful features to the popular instant messaging client. Yahoo Pal is not a stand-alone application, but an add-on that integrates into Yahoo Messenger and allows you to access its options straight from the menu bar of Yahoo's program. First of all, Yahoo Pal lets you use multiple accounts on the same computer, which is indeed a very useful feature for users who own more than a single Yahoo account. Another good tool integrated into Yahoo Messenger is the auto-reply utility that enables you to set up custom messages to be sent to your contacts when you're away from the keyboard. And what's more, you can input different messages for multiple accounts. Last but not least, Yahoo Pal comes with a dedicated feature to set up a hotkey for hiding Yahoo Messenger windows, with the same shortcut also being used for opening all chatting windows instantly. While Yahoo Pal doesn't seem to have any problem running on all Windows iterations on the market, it's not compatible with the latest Yahoo Messenger releases and during our test it only launched on versions older than 9.0. All in all, Yahoo Pal is a handy piece of software for all Yahoo Messenger addicted users, bringing an interesting pack of features to an otherwise advanced instant messaging tool. It doesn't hamper system performance and works like a breeze on all Windows versions. Yahoo Messenger is the most popular instant messaging and VoIP client software for both personal and business use. With thousands of users installing Yahoo Messenger every day, it is becoming ever more important to have a utility like Yahoo Messenger Buddy List Organizer that can manage and organize your friends into various groups. With Yahoo Messenger Buddy List Organizer, you are free to set up and manage all your Yahoo Messenger buddy lists or groups, allowing you to easily manage and organize all your friends. Yahoo Messenger Buddy List Organizer is a must-have for all Yahoo Messenger users who are looking for a way to organize their friends and have their friends organize them, too. Yahoo Messenger Buddy List Organizer will be able to manage all your buddy lists and groups and you can also set up reminders to let you know when a particular Yahoo messenger buddy becomes available. One of the most useful features of Yahoo Messenger Buddy List Organizer is the ability to integrate with your Yahoo Messenger account, allowing you to access all your account settings straight from the application. Download the application now, and you will be able to organize all your friends into a number of groups and you will be able to personalize your own buddy list with your own background picture, set specific reminders for your buddies and use the chat history to quickly find the Yahoo Messenger buddies who you have not yet gotten to know. Yahoo Messenger Buddy List Organizer Features: - Set reminders for your Yahoo Messenger buddies - Customize your buddy list background image - Disable certain Yahoo Messenger buddies from appearing in your buddy list - Set up your own Yahoo Messenger Buddy List - Organize your Yahoo Messenger buddies into groups Enhanced Yahoo! Messenger for Windows for Windows Vista: Yahoo! Messenger is the world's largest and most popular instant messaging application, with over 630 million people using Yahoo! Messenger every month. It is also one of the few popular chat client applications that allows an unlimited number of friends or contacts to be contacted and received instant messages at once. However, with a huge number of Yahoo! Messenger users and friends online, it is challenging to keep track of them all. In addition to allowing multiple contacts to be held in the contacts list of Yahoo! Messenger, Yahoo! Messenger also provides an ability to easily group them into different contact lists and save chat log of a particular contact in your account for further reference. However, there are many Windows users who have the universal problem of not finding all contacts in their own Yahoo! Messenger contacts list, and it is especially true for
