

i recently made this pie for my birthday and it was delicious! i added extra garlic because i was a little unsure of how well the parmesan would hold up to the other flavors in the pie, but it actually turned out better than i expected! i am definitely going to make this pie again soon and i would highly recommend it to anyone who loves classic swiss-style cheese cake! thank you so much for this amazing recipe! i made this cake last weekend and it was amazing! i made a few changes to the recipe. i doubled the amount of butter and added 1/4 c milk to the flour mixture. i also added a tsp of vanilla. i followed the recipe exactly and it turned out perfectly! i didn't have a springform pan, so i made it in a large round cake pan instead. swiss manager has the best support from it's users and it's a lot more than an accounting program. they're just an awesome and friendly bunch. you don't have to pay for it, but you have to register to use it. i suggest not to buy any right away. i prefer swiss manager for my tournaments. it is free if the number of players is less than 60. you only have to buy if you want to conduct a real big tournament. bad thing is that swiss manager has no proper reviews or tutorials. it was hard for me in the beginning but i learned it watching videos in strange languages (maybe russian). i made a tutorial in english - > swiss perfect full version cool! i'm very excited to try this out! i've been using swiss manager for years and i love it, but i'm always looking for new ideas. i'm a total noob at cake decorating, but i'm starting to get the hang of it.

i love this recipe for the pavlova, but if you're making pavlova for a special occasion, i'd recommend the swiss roll method, rather than the pavlova method. it's so much easier, and if you're in the uk, you can get the convenience of frozen filo pastry, rather than having to make your own pastry. the swiss roll method is easy, and can be done by someone with little previous experience. the swiss roll method is to roll up the pastry in whatever way you fancy, then wrap it in a large sheet of greaseproof paper, and fill it with your filling. fold the paper over and squeeze the sides together so the pastry is closed, then bake. i normally use shop-bought filo pastry, and when i make my pavlova, i make the swiss roll method, and it works brilliantly. thanks for the recipe, i've never made a pavlova or swiss roll before, but i'm looking forward to trying out these recipes. i'll be back! i add a little vanilla extract, and a little sugar, to the custard, and then i add a little more sugar to the top of the pavlova before baking. the pavlova is really easy to make, and the end result is really nice and light. i like the idea of using the pavlova recipe as the base for the swiss roll, since it's so versatile. we tried this recipe over the weekend and it turned out fantastic! i'm not a baker, so i never bake, and this was my first attempt at a baked cheese cake, and it came out perfect! (i'm not sure if that's a good thing or not!) i followed the directions exactly, and made the cake a bit larger than the recipe called for, and it turned out to be very moist and delicious! 5ec8ef588b
