The construction of the chamber was completed shortly after, according to local rumors, and at least one man close to the project believes that it was created by a traveling theatrical group, or by filmmakers (thus the name in German: Tanztheater). Edgar Allen Poe wrote in his "Eureka" the novel about the discovery of the Chamber, not mentioning its size. The story was published in several newspapers on the first of October, and received wide coverage worldwide. It was Poe's last book to be published during his lifetime. It is also considered the first newsworthy crime. Film makers and fans have made a lot of efforts to search for the chamber, including NASA, which sent a sonar unit to try and penetrate the top of the structure. The movement was also captured on video. The people you could watch this movie with are anyone. It is a cool movie that has a certain type of cool factor that is going to have the people with a certain level of taste going "Fuck yeah that was awesome" and the more pretentious more over analyzing types rolling their eyes because that was too much of the good stuff and they are left with a bitter taste in their mouth. If you like a good story well told then you should love this movie. If you have read my other reviews you will see that I don't care too much for A-list actors in anything, but this is a very well acted story. A lot of time is spent on truly trivial things (so much so that you could not care about it), but that is what makes it so good. It doesn't matter to me if you are a stereotypical cool guy or not. If you have ever read any of Faulkner's books, or what Clute and Edwards put out, or even Charles Bukowski you will enjoy this movie. Watching this movie you will be inspired to go out and do something amazing. The descent is a profound look into the human soul, the nature of the human spirit and finally a modern parable of the journey through life. Having to grow into adulthood, the struggle to find your place in the world, and the question of what makes one a hero is not an easy task for anyone. We are told to follow our hearts, but you can't always follow your heart. That is the dilemma that Maya faces. Certainly not the only one, but it's a great one. This movie is painful to watch. It's not really a harrowing experience. All those were my impressions as a reviewer. What you get is an in-depth story that is great as a whole, but pieces of it are not as good as others. The descent is painful to watch, but I am going to say that it is enjoyable as all hell. This is one of the greatest stories ever told.
